

# CYLINDER REGULATORS

When your regulator is due a changeout after 5 years of service, why should you choose GasArc?

**UK-manufactured cylinder regulators designed for precision, safety, and reliability.**

We deliver uncompromising control across a wide range of industrial, laboratory, and specialty gas applications.

Designed and manufactured in the **UK**, our range of regulators ensure stable pressure, exceptional purity, and long-term performance - even in the most demanding environments.

TECH MASTER GPT400

LAB MASTER LGT500

SPEC MASTER HPT600

CHEM MASTER SGT600

## OUR REGULATOR RANGE:

- > **TECH MASTER GPT400** Up to 4.5 purity (99.995%), ideal for technical gases.
- > **LAB MASTER LGT500** Up to 5.0 purity (99.999%), for high-purity control.
- > **SPEC MASTER HPT600** Up to 6.0 purity (99.9999%), for ultra-pure applications.
- > **CHEM MASTER SGT600** Up to 6.0 purity (99.9999%), built for corrosive, toxic, and high-purity gases.

*Is your existing regulator in date, maintained and safe for use? Inline with UK Guidance and recognised by leading insurers, let us help you by keeping you compliant.  
Call **0115 982 1111** and speak to the **SLS Sales Team** quoting **CYLSAFE26**.*
